

Kamal Benaouija

Electrical Engineering Student · Founder · AI Builder

Leipzig, Germany · kamalmanar12122022@gmail.com · kamalbenaouija.com · github.com/kamalbenaouija

SUMMARY

Electrical Engineering & Information Technology student at HTWK Leipzig, founder of 9rabra, and a builder who combines engineering, software and AI to ship real products. Open to internships, working student roles and collaborations.

EXPERIENCE

- Founder — 9rabra**

2024 — Present

 - Defined product vision, strategy and roadmap; designed and shipped v1 end-to-end.
 - Combined engineering and AI to move fast with a small footprint.
- Freelance Software Developer — Independent**

2023 — Present

 - Delivered full-stack web applications from design to deployment for clients.
 - Built AI-assisted automation workflows saving clients hours of manual work.
- Working Student — Placeholder Company GmbH**

2023 — 2024

 - Assisted with testing and documentation of electrical systems.
 - Built small internal tools to streamline team workflows.

EDUCATION

- HTWK Leipzig — B.Eng. Electrical Engineering & Information Technology**

2022 — Present

Focus on power systems, automation, embedded systems and software engineering.
